

App. No. 10/634,189
Attorney Docket 3023.2.1 CIP

Amendments to the Claims

In the claims, please amend the claims as follows:

Claims 1-9 (cancelled)

10. (currently amended) A vegetation integrated cover for a tool, which has a working portion and a handle extended therefrom, comprising:

a container, comprising:

a base; and

a cover, removably coupled to the base, configured to cover the working portion and the handle of the tool;

a plurality of vegetation holders, designed to position vegetation on the cover to substantially hide the appearance and shape of the cover; and

wherein upon removal of the hidden cover, the working portion and the handle of the tool are exposed[.];

wherein the cover comprises a handle portion cover and a working portion cover, and wherein the vegetation holders are designed to removably retain vegetation on a top section of the working cover portion cover and along the handle portion cover; and

wherein the handle portion cover includes vapor holes to allow moisture to evaporate therethrough.

App. No. 10/634,189
Attorney Docket 3023.2.1 CIP

11. (currently amended) The cover of claim 10, wherein the base comprises a cavity with a cavity lip protruding upwardly from the base, and configured to position the working portion of the tool in a central location of the base.

~~wherein cover comprises a handle portion cover and a working portion cover, and wherein the vegetation holders are designed to removably retain vegetation on a top section of the working cover portion cover and along the handle portion cover.~~

12. (previously presented) The cover of claim 11, wherein the working portion cover comprises an inner and an outer ring attached to the top thereof, and wherein the rings include vegetation holders.

13. (currently amended) ~~The cover of claim 10,~~ A vegetation integrated cover for a tool, which has a working portion and a handle extended therefrom, comprising:

a container, comprising:

a base; and

a cover, removably coupled to the base, configured to cover the working portion and the handle of the tool;

a plurality of vegetation holders, designed to position vegetation on the cover to substantially hide the appearance and shape of the cover;

wherein upon removal of the hidden cover, the working portion and the handle of the tool are exposed; and

App. No. 10/634,189
Attorney Docket 3023.2.1 CIP

wherein the base comprises a cavity with a cavity lip protruding upwardly from the base, and configured to position the working portion of the tool in a central location of the base.

14. (currently amended) A vegetation integrated cover for a tool, which has a working portion and a handle extended therefrom, comprising:
a container, comprising:
a base; and
a cover, removably coupled to the base, configured to cover the working portion and the handle of the tool;
a plurality of vegetation holders, designed to position vegetation on the cover to substantially hide the appearance and shape of the cover;
wherein upon removal of the hidden cover, the working portion and the handle of the tool are exposed; and
wherein the cover comprises spacers positioned between the cover and the base, and configured to create an opening between the cover and the base to allow moisture to pass therethrough.~~The cover of claim 13, wherein the tool is a plunger.~~

15. (previously presented) The cover of claim 13, wherein the tool is a toilet scrub brush.

16. (previously presented) The cover of claim 14, wherein the plunger surrounds the cavity lip.

App. No. 10/634,189
Attorney Docket 3023.2.1 CIP

17. (previously presented) The cover of claim 15, wherein the working portion of the toilet scrub brush fits inside the cavity.

18. (previously presented) The cover of claim 10, wherein the cover comprises spacers positioned between the cover and the base, and configured to create an opening between the cover and the base to allow moisture to pass therethrough.

19. (currently amended) The cover of claim 14 ~~11~~, wherein the handle portion cover includes vapor holes to allow moisture to evaporate therethrough.

20. (previously presented) The cover of claim 13, further comprising at least one moisture drain passing through the cavity lip to allow moisture to drain from cavity.

21. (previously presented) The cover of claim 11, wherein the top of the working portion cover includes a layer of material designed to appear as dirt.

22. (New) The cover of claim 21, further comprising at least one moisture drain passing through the cavity lip to allow moisture to drain from the cavity.

23. (New) The cover of claim of claim 18, further comprising at least one moisture drain passing through the cavity lip to allow moisture to drain from the cavity.

App. No. 10/634,189
Attorney Docket 3023.2.1 CIP

24. (New) The cover of claim 13, wherein the handle portion cover includes vapor holes to allow moisture to evaporate therethrough.

25. (New) The cover of claim 17, further comprising at least one moisture drain passing through the cavity lip to allow moisture to drain from the cavity.

26. (New) The cover of claim 25, wherein the handle portion cover includes vapor holes to allow moisture to evaporate therethrough.

27. (New) The cover of claim 20, wherein the handle portion cover includes vapor holes to allow moisture to evaporate therethrough.

28. (New) The cover of claim 14, further comprising at least one moisture drain passing through the cavity lip to allow moisture to drain from the cavity.

29. (New) The cover of claim 16, wherein the handle portion cover includes vapor holes to allow moisture to evaporate therethrough.
